RR is investing heavily in locomotive and railway improvement of freight and services to increase accessibility, convenience, ease of use, and to allow customers to trust in its services.

2. FLUCTUATIONS IN PRICES OF RAW MATERIALS ANALYSIS

RR is a railway operator providing freight service transportation, therefore the analysis of fluctuations in prices of raw material is not applicable to the Company.

3. TAX ANALYSIS

RR is obliged to pay taxes and excises to the state under the existing laws of Cambodia. RR is a large taxpayer and is required to pay tax under the real regime tax system as set forth by the General Department of Taxation. Tax expenses include current tax and deferred tax. The currency that gives rise to the foreign exchange risk to the Company is primarily United States of Dollar (US\$) from borrowings and transactions with related parties and payment of operating expenses. The Company does not hedge its foreign currency exposure. To manage its foreign currency exposure, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary.

2. INTEREST RATE RISK

The Company does not account for any fixed-rate financial assets at fair value through profit or loss, and the Company does not have derivatives at the reporting date. Therefore, a change in interest rates at the end of the reporting period would not affect profit or loss.
